Attachment: Attached you will find a copy of the latest “Organization Chart” published by the District. This document can be found on the DCSD website.

Thank You: DCFT would like to thank the building representatives for all of their help during the last few months. We have been asking them to help us collect data being used by various committees and project teams. Please be patient with them when they forward the communications. We only ask for information we find beneficial in our discussions with the District. Thank you, too, for helping them collect this very important data and information.
