

A Proven Track Record

- **DCSD Financial Transparency** - Developed the online repository of DCSD financial information, in coordination with the ITS Department, to provide greater financial transparency concerning how tax dollars are spent and how DCSD operates.
- **Apple Awards Program** - Established this annual fundraising event that honors teachers who have demonstrated superior ability to foster excellence in education and continuous improvement of student learning throughout DCSD. The Apple Awards has raised more than \$470,000 in proceeds during the past six years.
- **Digital Educator Program** - Partnered with Apple to design and implement this award-winning professional development program providing hundreds of teachers training in integrating technology into their classrooms providing 21st century learning environments for Douglas County students.
- **Expert Technician Academy** - Launched this industry/workforce/education partnership that addresses hard-to-fill skilled employment needs in Aerospace, Energy, IT, and Bioscience industries. Since 2008 the program has prepared hundreds of youth and adult learners for entry-level professional positions, industry-recognized certification and college credit.

Susan D. MEEK

“I am running for the Douglas County School Board in order to add a new voice to the Board -- a voice dedicated to public education and building strategic partnerships to support our students, schools and community.”

Build strategic partnerships that are mutually beneficial.

- Focus on creating efficiencies through partnerships.
- Develop stronger business partnerships in order to better educate students on what is necessary to achieve successful careers in the new global economy.

Create a climate and culture that allows innovation to flourish.

- Address the declining confidence level that the District is headed in the right direction as reflected in 2009-10 parent and employee surveys.
- Emphasize “innovation” instead of “reform-agenda.”

Inform and energize parents to maximize each student’s potential.

- Create “State of the School District” outreach efforts to provide regular opportunities for two-way communication on District programs and resources.
